

REMARKS

The new claim set has been substituted for the original claims in order to correct improper multiple dependent claims and to rewrite "use" claims as method of treatment claims. The new claim set is fully supported by the original claims. More specifically, nucleic acid claims 41-44 are supported by original claims 1-4; Claims 45-49, directed to an expression vector, are supported by original claims 5-9. Host cell claims 50-54 are supported by original claims 10-14. Claims 55-65, directed to polypeptides, are supported by original claims 15-25. New claims 66-68, directed to a pharmaceutical preparation are based on original claims 26-28. New method of treatment claims 69-78 are based on use claims 29-40. No new matter has been added to the application as a result of the new claim set.
